

POWER CHUCKS

N-200 A SERIES CHUCKS-3 JAW

1.5mm x 60° Serrations Power Chucks

Strong produces high quality chucks that are interchangeable with Kitagawa™ B200 series chucks. These popular power chucks are also available in 2, 4 and 6 jaw models.

Chucks Are Interchangeable With Kitagawa™ B200 Series Chucks!

Full Line Available!
Please call for more information.

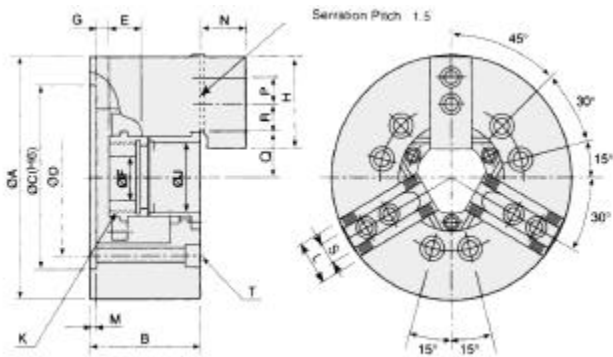

Chucks Includes:
1.5mm x 60° Master Jaws
Blank Drawnut • Soft Top Jaws
T-Nuts • Mounting Bolts • Wrench

FEATURES:

- Approx. 20% higher speed, higher gripping force and larger bore compared with usual chucks.
- Model N-200A chucks are assembled with adapter for ASA B5.9 type A spindles.
- Model N-200A chucks are manufactured from high grade alloy steel. All sliding surfaces are hardened and ground for accurate actual running and long service repeatability.
