

THREAD REPAIR INSERTS

B

THREAD INSERTS

- Easy to install-Use a screwdriver, bot/jam nut or optional drive tool. Thread like an ordinary fastener.
- Screw machined out of solid steel for greater strength and superior pull out resistance.
- Self-Locking-E-Z LOK inserts will not back out or vibrate loose. Preapplied adhesive activates upon installation and bonds to virtually all metals.
- Ideal for tool cribs, the metalworking industry, maintenance, molding and automotive or anyone running a fastener in and out of soft metals.
- Additional sizes and styles available.
- Sold in package quantities only.

Installation Is As Easy As 1-2-3!
 1. Drill hole with standard drill
 2. Tap hole with standard tap
 3. Turn E-Z LOK home flush with bolt
